Professional Summary

Certified cloud developer and application specialist with over six years of
experience delivering innovative solutions using AWS, Azure, IBM Cloud, and
Google Cloud Platform. Founder of Cloud Technology Computing Corporation with a
proven track record in building scalable applications, enhancing security, and
optimizing cloud architectures for enterprise clients. Recognized for technical
expertise, strategic digital marketing, and commitment to continuous learning
and professional growth.

Technical Skills

Cloud Platforms: AWS, Azure, IBM Cloud, Google Cloud Platform, Linode
Cloud Technologies: Docker, Kubernetes, CI/CD pipelines, Cloud Migration, SAP
Analytics Cloud
Programming Languages: HTML, CSS, JavaScript, PHP, Java, Python, SQL
Frameworks & Tools: Git/GitHub, Visual Studio Code, Jupyter Notebooks,
WordPress
Certifications: AWS Certified Cloud Practitioner, CompTIA A+, Linux Essentials,
Microsoft Azure Developer, IBM Cloud Certification
Digital Marketing: SEO, PPC (Amazon, Facebook, Google, Snapchat, TikTok,
Twitter)

Professional Experience

Application Developer Specialist

IBM | 2020 - Present

- Utilized agile and waterfall methodologies to develop software and custom
  applications of varying complexity and client needs.
- Learning natural language processing utilizing frameworks like lang-chain
  and IDEs like Jupyter Notebook.
- Complete and far exceed the mandatory 40 hours a year learning
  requirement placed on all IBM employees
- Apply artificial intelligence and machine learning principles to software
  development utilizing Watson.
- Utilize IBM Cloud one of the leading platforms in the industry for
  training and upskilling in building cloud-native architecture and
  solutions. I have several IBM Cloud certifications.
- Delivered over 50% of contracted application development projects for
  Norfolk Southern, a Fortune 500 company, ahead of schedule and under

budget constraints, significantly enhancing operational efficiency and client satisfaction.

Founder & CEO

Cloud Technology Computing Corporation | 2023 - Present

- Established and grew a technology consulting firm providing cloud-based software development, IT consulting, SEO optimization, and mobile application development.
- Completed multiple projects leveraging AWS, Azure, and IBM Cloud, resulting in measurable improvements in client business metrics and online visibility.
- Managed and optimized digital marketing campaigns, driving significant traffic and conversions for clients across various industries.

Education

Bachelor of Science in Cloud Computing (Expected 2025)
Western Governors University, Salt Lake City, UT

Additional Training:

- HarvardX Intro to Computer Science (CS50)
- College 42 Tech Bootcamp
- IBM Application Developer Apprenticeship

Certifications

- AWS Certified Cloud Practitioner
- Microsoft Azure Developer
- IBM Cloud Certification
- CompTIA A+ Certification
- Linux Essentials
- SAP Certified Application Associate – SAP Analytics Cloud
- CompTIA IT Operations Specialist – CIOS Stackable Certification
- CompTIA Network+ ce Certification
- IBM Application Developer Apprenticeship
- Cloud Computing Fundamentals
- IBM Machine Learning Specialist – Associate
- IBM Storage and Cloud Essentials
- IBM AI Associate Data Scientist
- Cloud Essentials
- Docker Essentials: A Developer Introduction
- Building Cloud-Native and Multicloud Applications
- Journey to Cloud: Orchestrating your Solution
- Big Data Foundations – Level 1
- Data Science Foundations – Level 1

- IBM Apprenticeship Program — Professional Skills
- IBM Consulting — Communicating Value
- IBM Consulting — Delivering Business Value
- Machine Learning with Python — Level 1
- Data Science Methodologies
- Data Science Tools
- IBM Blockchain Essentials V2
- Security and Privacy by Design Foundations
- Enterprise Design Thinking Practitioner
- IBM Agile Explorer
- IBM Automation: Compass

Projects & Achievements

- **Hybrid Cloud Solutions:** Conducted detailed performance analysis comparing dedicated hosting and various cloud architectures, optimizing costs and improving client scalability.
- **SEO & Web Optimization:** Led strategic SEO initiatives that boosted client website visibility by 65%, integrating SEO best practices directly into cloud-based application development.
- **Mobile Applications:** Developed and published five Android applications to Google Play, showcasing expertise in Java and native mobile app development.

Professional Affiliations & Activities

- Active contributor on LinkedIn, sharing industry insights, and best practices, and mentoring upcoming professionals in cloud computing.
- Regular participation in industry webinars, certifications, and continuous professional education.
